

# Meet Sun Life Health. Get to Know Our New Brand.

After years of expansion and fulfilling our commitments to our communities, we needed to update our brand to better reflect who we are and all we have to offer.

## OUR PURPOSE

To improve the health and wellbeing of all people and communities we serve.

## OUR COMMITMENT

To provide the highest quality, comprehensive healthcare to all people and empower our communities to prioritize health and wellbeing.

## OUR GOAL

To be a model organization empowering all people to achieve their healthiest lives.

## Where We Came From & Why We're Here

Sun Life Family Health Center started in 1976. We grew from a small doctor's office with only two physicians into one of Pinal County's largest primary care providers.

For the last 45+ years, SLH has become a valuable community resource while also participating in the continued economic growth of Pinal County.

## Our New Logo & Tagline

The four parts of the sun starting from the center circle represent patient-centered care that revolves around the individual.

### You Deserve Exceptional Healthcare, Without Exception.

Coordinated care, we work together to create a personalized health care plan that meets your individual needs — because your health matters.

And so do you.

#### BEYOND PRIMARY CARE

From pediatrics and dentistry to women's health to onsite lab testing, pharmacies, telehealth and more.

#### SAME-DAY VISITS

On-demand, no-wait care when you need it — walk in or book a same-day appointment.

#### SEAMLESS INTEGRATED SERVICES

Coordinated care that focuses on the whole person, including education on prevention and chronic condition support.

## Our Promises to You

Patients come first

Continuously innovate

Commitment to collaborate

Professional excellence

Empowerment through education

## Your Health Starts Here

As we transition to our new brand over the next two years, we plan to continuously innovate our healthcare, expand our footprint, and above all else, focus on you and your health.

Please be on the lookout for more updates about future changes, improvements, and happenings at Sun Life Health.

Sincerely,

Eddie Estrada, MD  
CEO Sun Life Health
